---

**Note:** The information provided is a compilation of various projects and initiatives supported by the UNDP in response to the Syrian Crisis in Lebanon. The numbers and details reflect the scale and impact of these efforts, aimed at providing support to both Lebanese and Syrian beneficiaries through a variety of services and initiatives. The data includes key aspects such as the number of projects, beneficiaries, and the resources invested, offering a comprehensive view of the UNDP’s response strategy.
Improving living conditions of Palestinian Gatherings in Lebanon

Until June 2015, the UNDP project “Improving Living Conditions in Palestinian Gatherings Host Communities” has supported Palestinian Gatherings in Lebanon, home to 110,000 Palestinian refugees in Lebanon and some 30,000 PRS and SRS, by:

- 80 WASH and infrastructure projects in 35 Gatherings
- 20 water
- 23 sewage
- 20 road and storm water
- 7 solid waste
- 10 electricity

- Rehabilitating 750 shelter units housing PRS and equipping them with WASH facilities in 35 Gatherings

- 26,000 hygiene and baby hygiene kits distributed for most-in-need families in 30 Gatherings

- Reaching 10,000 dwellers through direct activities of a behavior-change WASH awareness raising campaign, mainly targeting women and children (50% children, 30% women, 20% youth).

Disaster Risk Reduction

- A fully operational disaster risk management Unit located at the Presidency of the Council of Ministers
- Development of the National Responses Plan and implementation of 3 national field simulations
- Setting up and launching of the National Operation Room for crisis management and a mobile operation vehicle
- Supported 7 governorates and 8 cazas in preparing response plans, setting up operation rooms for crisis management and capacity building

Environment & Energy

Water, Sanitation and Hygiene

- Improve the effectiveness and reliability of water and sanitation

- 2,500 Lebanese households benefited from solar-powered lighting systems to vulnerable households to provide assistance during electricity shortages in the Akkar and Bekaa areas.

- 9,800 Lebanese & 6,000 Syrians benefited from Construction of Water pumps, reservoirs and networks in addition to wastewater networks and treatment in North Lebanon

- 600 energy efficient stoves and two winters’ supply of environmentally friendly briquettes were delivered to the most vulnerable people in the Akkar and Bekaa regions.

- 1,250 solar powered street lights were also installed in several municipalities in the Akkar area.

- 50,000 m² of solid waste cleared in the Bekaa area, improving the living conditions of 30,000 Syrian refugees and 5,500 Lebanese in the area.

- 2,500 Lebanese households benefited from solar-powered lighting systems to vulnerable households to provide assistance during electricity shortages in the Akkar and Bekaa areas.

- 9,800 Lebanese & 6,000 Syrians benefited from Construction of Water pumps, reservoirs and networks in addition to wastewater networks and treatment in North Lebanon

- 600 energy efficient stoves and two winters’ supply of environmentally friendly briquettes were delivered to the most vulnerable people in the Akkar and Bekaa regions.

- 1,250 solar powered street lights were also installed in several municipalities in the Akkar area.

- 50,000 m² of solid waste cleared in the Bekaa area, improving the living conditions of 30,000 Syrian refugees and 5,500 Lebanese in the area.

Capacity building for around 550 stakeholders involved in DRM through trainings and workshops

- Distribution of 1000 prototype emergency kits for replication for stakeholders and partners all over Lebanon

- Development of flood risk assessment and mapping for Lebanon

- Development of multi hazard risk assessments for 4 Governorates and 3 ministries

- Supported 6 ministries, Beirut Rafik Hariri International airport and Riak military base in the development of response plans and establishing fully equipped operation rooms

- Supported 6 ministries, Beirut Rafik Hariri International airport and Riak military base in the development of response plans and establishing fully equipped operation rooms
